The Dy Comr Hassan first has

and pottery trades is high and it may be reduced to Rs 2/- as the artisans concerned have been urging for reduction in the rate of the license fee The D C thinks that this concession is called for as the Blacksmiths and Potters are generally poor people and their services are essential factors in the economic life of the small towns

2 The D P H may perhaps be consulted kindly to furnish his views on the above recommendation of the D C Harsan Sahib

3 Some potters have also been addressed direct to the Secretariat by the Potters and Blacksmiths of Chennai agraharam, Harsan Sahib praying for the reduction of the license fee which is now levied at Rs 5/- p.a.

6) The recommendation of the D C may be accepted and the license fee in respect of Smithying & Pottery making reduced to Rs 2/- p.a. Instead of waiving the levy of license fee on oil boilings altogether it may also be reduced to Rs 2/- p.a. or all these come under the category of "Offensive trades"

S i r,

Adverting to Government Notification No L 4090-M1 74-37-109 dated 17-11-1938 issuing rules for the levy of license fees for the Dangerous and Offensive trades in Minor Municipalities, I have the honour to state that, during the course of my inspection of the Minor Municipalities of Konanur ~~and~~ Banavar, Channarayapatna and Sravanabalagola, many representations were made to me regarding the hardship caused by the high rate of levy I have examined the question and find that some relief is called for in respect of some particulars

1 In the case of Ganigars who prepare oil by boiling castor seeds at home the business they do is on a very small scale indeed and what they produce is intended only for local consumption It appears to be a misnomer to call this an offensive and dangerous trade and I recommend that in such cases the levy of the license fee may be waived altogether

2 In respect of two other trades viz , smithy and pottery very many complaints have been received regarding the hardship caused by the levy These people ply their trade on a very small scale and are essential factors in the economic life of these small towns The smithy for instance produce plough shares etc , in a rough way and the usefulness of the potter need not be dilated upon The business they do however is on a paltry scale and is very often

often eked out with a little farming The rate of Rs 5/- levied uniformly upon this poor but useful class of people appears to be too high and there is great deal of reality in the numerous representations received by me urging for its reduction I therefore recommend that Government may be pleased to reduce the license fee of Rs 5/- to Rs 2/-

I have the honour to be,

S i r,

Deputy Commissioner,
